

Lesson 1- Knowing Allah Through His Attributes

Providing Guidance to Your Friend

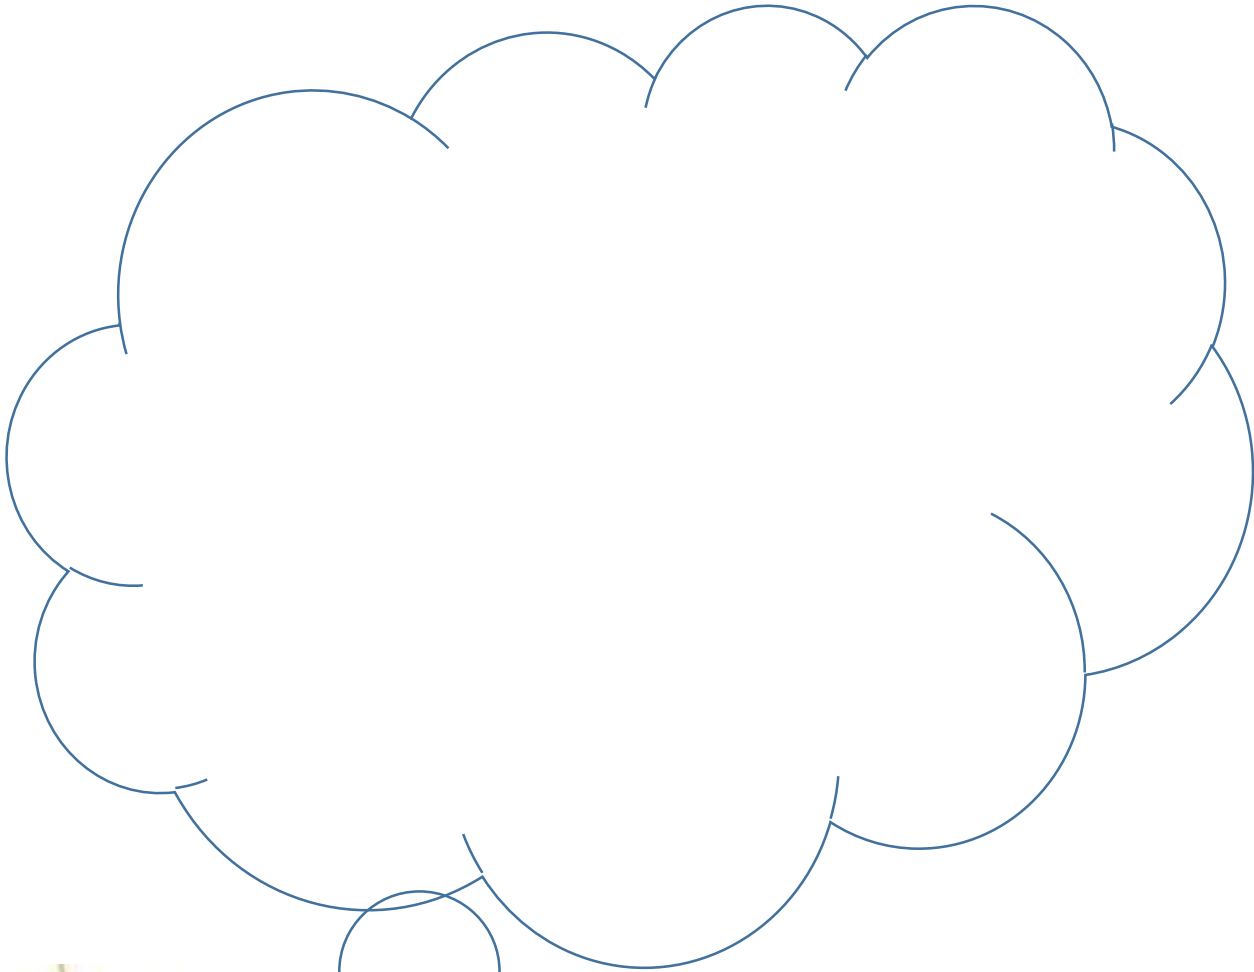

Your friend Tanya has just converted to the religion of Islam. She has tried her best to learn as much knowledge as she can about the religion of Islam. However, Tanya is confused about the existence of Allah. She is finding it difficult to believe that Allah exists because she cannot see Allah with her eyes. Based on what you have learned in the lesson, how can you convince Tanya that Allah exists even though we cannot visually see him?

Movie Producer

Congratulations! You have just been hired to perform the role of a movie producer and developer. Your first task is to assist in the creation of the movie "Witnessing the Existence of Allah". It is anticipated that this movie will be one of the best movies that has ever been created.

Your Task: Based on the story of Abu Shagr and Imam Ja'far Sadiq (a) that was presented in the lesson come up with a movie that is based on the information in this story. Use the space below to brainstorm the way you will narrate the story to turn it into a movie.

In the illustrations of your story, you can include speech and thought bubbles to show what the different people are saying in the story.

DON'T FORGET!

In the images for your movie, do not add the physical facial features to Imam Ja'far Sadiq (a) based on his status as an Imam.
