

# Lesson 5- Salah is the Mi'raj of a Mu'min

## Mountain Climbing Challenge

In the lesson you learned that salah is the mi'raj of a mu'min. In addition, there are different elements that could help you work towards this mi'raj. Your task as a climber is to write and explain each component of reaching the mi'raj in the mountain steps (one element in each of the steps). Once you write each of the elements in the steps you will be able to reach the top of the mountain. Illustrate any 5 of the 14 elements that are marked with a green circle in your lesson notes.

Good Luck on Your Mountain Climbing Challenge!

## Putting into Practice Knowledge that is Learnt

Imagine that after learning about how salah is the mi'raj of a Mu'min you realized that it was time to pray salah. Which of the elements in reaching mi'raj in salah would you try to apply when praying salah. When answering the question try to also include elements that you did not mention in the mountain climbing challenge.

---

You may want to include an illustration of the different elements that you discussed.

### DON'T FORGET!

Ensure that you include at least one relevant detail for each of the elements that you chose to include for answering the question above.
