

Yaqin and Itmi'nan

When you have Yaqin in Allah, everything you do is for the pleasure of Allah only. Every time you do something for humanity it should be for the sake of Allah and not to show off to people around you.

Activity

1. Ask the students one at a time what their strengths are and how they can use these strengths to serve Allah
2. Jot these ideas on the board so at the end of the exercise you can see a full picture. Notice the variety of strengths there are in just one classroom of students
3. Remind the students to always pray to Allah to continue to give them the strength to reach their full potential to serve Him.

As a class think of an organisation that you can send letters or cards to, for example an orphanage, nursing home, or a children's hospital.

Ask the students to pick from any of the following, depending on their strengths:

1. Draw and colour a picture
2. Make a card
3. Paint a picture/card
4. Write a poem
5. Write a letter

These can be collected from all the students and arranged to be delivered to the organisation that has been picked.

These letters/pictures will bring smiles to people; remind the students that this act of serving humanity should be done with the intention to please Allah.
