

M1 - D1 - Knowing Allah through His Attributes - Sifat e Salbiya

Let us take one important creation of Allah (SWT) and think.....

Allah has bestowed us with two eyes. What is the purpose of eyes for a human being:

Now close your eyes and think:

What do you see? _____

What do you feel? _____

With your eyes closed, can you visualize what other creations of Allah are? Name and describe any 3 of the creations. Then open your eyes and write them down on the lines given below.

Reflect on this one important creation. We are only able to see some of Allah's creations. How restricted we are. But imagine, ONE who does not have any physical form or body has created ALL the world that is around us.

Are we thankful to HIM?

Are we taking care of our eyes?

Are we taking care of all the blessings that HE has given us?
