

Lutf of Allah

Through Allah's kindness he shows us mercy and justice. In the same way that Allah is just towards us, we should be just and treat others fairly.

Being just does not mean equality.

Activity – Injury and Band Aid

1. Tell each student to imagine where they are hurt and point at it with their finger
2. Then go around to each student and put a band aid on the back of their hand, disregarding where they are pointing to their imaginary injury

Discussion

By putting the band aid on the same spot for each student, the teacher was practicing equality, but it didn't help because the band aid was not put where it was needed.

The just way to do it would be to put the band aid where each student's imaginary injury was.
