

Lutf of Allah

Through Allah's kindness he shows us mercy and justice. In the same way that Allah is just towards us, we should be just and treat others fairly.

Being just does not mean equality.

Activity – Pennies for all

1. Divide the class into groups of four or five
2. Give each student a different amount of pennies
3. Then give the group more pennies to share out

Discussion

Discuss with the students how they shared out the additional pennies.

Did they divide the pennies equally to the students in the group or did it depend on how much the students already had?

Fair does not always mean giving the same, but giving people what they need.
