

Lesson 2-Guidance and Grace (lutf) of Allah

You be the Teacher

Imagine that you are a teacher at Al Bayaan Islamic School. The students in the class have come to you with questions they have about the lesson you taught them about the guidance and grace of Allah. Using the information from the lesson provide assistance to the students for helping with their issues.

Situation 1: Meet the first student in the class: Sara

Sara is confused by ayah 115 of Surah al-Mu'minun when it states "Did you suppose that we created you aimlessly, and that you will not be brought back to us."

Explain to Sara how Allah created everyone with a purpose and how he has guided everyone.

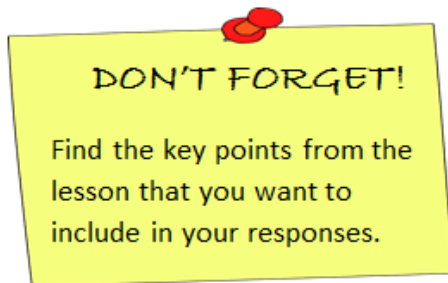

Situation 2: Meet the second student in the class: Yusuf

Yusuf is confused about the difference between the Arabic word "Tawaakkul" and "Lutf".

Explain to Yusuf the difference between these two terms.

Situation 3: Meet the third student in the class: Yaqub

Yaqub enjoys studying ayahs from the Qur'an. He is wondering if there are any ayahs from the Qur'an that discuss Allah's guidance.

You can also provide an illustration next to your written response.
