The Creation of the Universe

Modern Science and the Quran

(25 min Clip)

Watch the clip, compare and contrast Quran's description of the creation of the universe with modern science. This will prove that Allah created the universe. On the left write what the Quran said about a specific topic on the universe and on the right compare what modern science discovered in the 20th Century.

(Can be done together in the class, group work or HW/assessment).
