## SURAHS MEMORISATION - from KG to CLASS 3

### The Holy Prophet (SAW) has said:

"The number of levels (stages) in Heaven is (equivalent to) the number of verses in the Qur'an (6236). Thus, when a reciter of the Qur'an enters into Heaven, it will be said to him: 'Go up one level for every verse that you can recite.' Thus, none will be in a higher level than the one who has memorized the entire Qur'an."

**[Biharul Anwar, Volume 92 Page 22]**

The table below classifies how the student will be tested for Surah Memorisation every year, by the Holy Madrasah. It will be to the child's advantage if parents prepare them ahead of time.

The chart from KG to Class 12 has been designed to cover the whole of the 30<sup>th</sup> Sipara (Juz Amma).

Some surahs have been repeated for testing purposes. Surahs which are required in our day to day lives, like Surah Jumuah and Surah Mulk have been added.

Parents are advised to train their child(ren) to memorise by reading from the Qur'an rather than only learning the Surah by heart.

When the child reads then memorizes, they learn the formation of the text, and they learn where the extra pull is required. It also ingrains the Surah well into their minds.

## EFFECTIVE METHODS OF MEMORISATION

- 1) Teach an Ayah a day. This is a tried and tested method, where even when the student is ready to learn more, we restrain and teach only that one ayah (with meaning if one prefers). The next day a second ayah and so on. In a week the student has learnt 7 ayaat. This is stress free and an easy method.
- 2) Get help from YouTube. Type in the Surah Name and numerous options will come up. You can select your preferable reciter (we recommend Mishary Al Afasy) and the student can listen, read and learn at the same time. This will help build in the right makharij as well.
- 3) Download the App called Memorize. This is preferred by the older students for self-study.

## HOW THE HOLY QUR'AN CAME TO US

## HOW TO RESPECT THE HOLY QUR'AN

Always recite the Holy Qur'an with a very sweet and beautiful voice.

We should NOT place anything on top of the Holy Qur'an, not even other books.

We can place copies of the Qur'an on top of each other.

When reciting the Holy Qur'an, it is better to face the Qiblah and to sit with respect.

# MOTOR CONTROL

Exercises 1 - 6 in the following pages have been designed to assist the child in his/her handwriting skills.

Connecting the lines or the dots, using the Eye-Hand co-ordination will assist in establishing their motor control and movement in making the formation of the letters.

Make sure of the following:

- 1.) The correct sitting Posture of the body is important. The child should be comfortable
- 2.) The grip of the Pencil is also important. In the initial stages, parents/teachers should assist the child in the movement over the lines/dots. This will help in the co-ordination of the eye-hand-pencil connection.

## LETTER RECOGNITION PRACTICE

### READING & WRITING OF LETTERS

Below are numerous exercises which will aid the student to recognize the letters in a gradual manner. The recognition system highlights only a few letters at a time. This will help to reinforce what has already been taught before, but ensures that when the child goes towards further chapters, this recognition is complete.

Later on we have exercises where all the letters are mixed and the child should be able to identify these letters and say them with the right Makharij, with good speed and NO assistance by the parent/teacher. When this stage is fully accomplished, feel free to go ahead to other chapters.

### TEACHING METHOD:

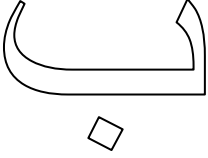

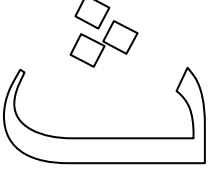

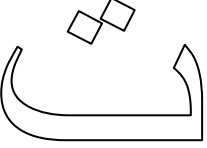

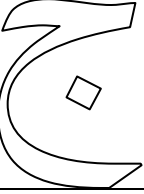

- 1.) Write and pronounce the letter. The student should repeat the letter after you.
- 2.) Allow the child to read and identify the letter from the table.
- 3.) When the child is comfortable with the identification table and is aware of each letter and how it is to be pronounced, then proceed to the writing and colouring exercises.
