SURAHS MEMORISATION - from KG to CLASS 3

The Holy Prophet (SAW) has said:

"The number of levels (stages) in Heaven is (equivalent to) the number of verses in the Qur'an (6236). Thus, when a reciter of the Qur'an enters into Heaven, it will be said to him: 'Go up one level for every verse that you can recite.' Thus, none will be in a higher level than the one who has memorized the entire Qur'an."

[Biharul Anwar, Volume 92 Page 22]

The table below classifies how the student will be tested for Surah Memorisation every year, by the Holy Madrasah. It will be to the child's advantage if parents prepare them ahead of time.

The chart from KG to Class 12 has been designed to cover the whole of the 30th Sipara (Juz Amma).

Some surahs have been repeated for testing purposes. Surahs which are required in our day to day lives, like Surah Jumuah and Surah Mulk have been added.

Parents are advised to train their child(ren) to memorise by reading from the Qur'an rather than only learning the Surah by heart.

When the child reads then memorizes, they learn the formation of the text, and they learn where the extra pull is required. It also ingrains the Surah well into their minds.

EFFECTIVE METHODS OF MEMORISATION

- 1) Teach an Ayah a day. This is a tried and tested method, where even when the student is ready to learn more, we restrain and teach only that one ayah (with meaning if one prefers). The next day a second ayah and so on. In a week the student has learnt 7 ayaat. This is stress free and an easy method.
- 2) Get help from YouTube. Type in the Surah Name and numerous options will come up. You can select your preferable reciter (we recommend Mishary Al Afasy) and the student can listen, read and learn at the same time. This will help build in the right makharij as well.
- 3) Download the App called Memorize. This is preferred by the older students for self-study.

EXERCISE 121: READING ALPHABETS

We have now reached the stage where the student is familiar with all the letters of the Huruful Hijai (The Arabic Alphabet). Revise exercise 121 and 122 to ensure, that the student is fully confident with the letters, before proceeding to the Fat-ha, Kasra and Dhamma.

THE VOWELS IN ARABIC (IRAAB)

FAT-HA, KASRA & DHAMMA (short vowels)

VOWELS THAT GIVE THE SOUND TO THE LETTERS

Parent/Teacher's note: Explain to the student about the English vowels, a,e,i,o,u, and how they change the words to sound different, as in bat, sit, put, etc.

Whereas in Arabic the vowels are NOT from the letters, but are in the form of signs, like **Fat-ha**, **Kasra** & **Dhamma**, and by putting them above or below a letter, the sound of the letter changes.

When a child understands the difference between the English and the Arabic, he/she will then have a better understanding of the difference between the two languages.

The 3 major short vowels in Arabic of **Fat-ha**, **Kasra** and **Dhamma** are also known as **IRAAB or HARAKA**. These are the vowels that give the sound to the letters.

When a child has mastered the simple letters, he should be made aware of the vowels (signs, Iraab or Haraka). Explain that, a small line above a letter is called Fat-ha, a similar line below a letter is called Kasra and one with a round turned head (similar to a comma in English) above a letter is called Dhamma.

VOWELS THAT GIVE THE SOUND TO THE LETTERS

FAT-HA	KASRA	DHAMMA
		
BA	BI	BU

Write the Iraab (sign) of Fat-ha, Kasra and Dhamma on the board and show the child the signs, explain to them how the sound of the letter changes, when the position of the sign is changed. Allow enough practice of how to pronounce the letters which bear signs.

Fat-ha: While uttering a letter bearing a Fat-ha, the mouth should be opened upwards.

Kasra: While uttering a letter bearing Kasra, the voice should come out of the mouth straight and the lower jaw should incline a little downwards.

Dhamma: As regards to a letter bearing the Dhamma sign, it should be uttered by protruding the lips a little and keeping them in a round shape.

Note that these IRAAB, are original sounds in Arabic, that assist you to read and pronounce the letter properly.

The teacher should pronounce every letter of the alphabet herself and then make the students repeat them.

بَ	ba
تَ	ta
جَ	ja

In other words instead of resorting to spellings, the letters bearing the vowels should be read out in a running manner.

This is a basic introduction. In the next section, we individually introduce each Iraab in detail, followed by some practical reading and writing exercises. These will help in consolidating what the child has learnt.

It is better to introduce the Iraab one at a time so that the student becomes fully conversant with each, THEN move forward to the next one. This will build his/her confidence and you can encourage them by saying that they are now able to join and read words in Arabic.

THE SHORT VOWEL FAT-HA

(a) FAT-HA  is a small slanting line placed above the letter and it gives that letter the sound of 'a' while reading.

WHAT WE HAVE LEARNT IN CLASS 2

THE HURUFUL HIJAI (THE ARABIC ALPHABET) and THE IRAAB SIGNS OF FAT-HA and KASRA

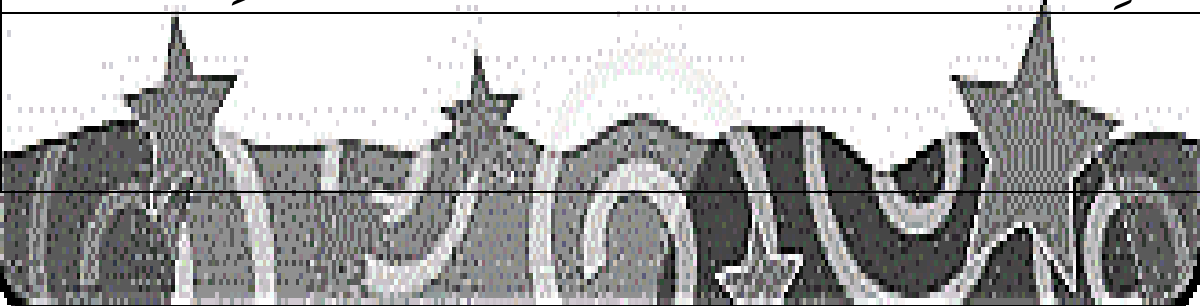

All the sounds covered so far have been put together into the next exercises. Make sure all the sounds are pronounced correctly. Repeat these exercises as many times as necessary to improve understanding, fluency, makharij and confidence of the student.

Teacher/ Parent Note: Exercise 148 brings us to the end of the Syllabus for Class Two. Try the Exercises 149 - 153 below and test the student to see if they have grasped all that has been taught so far. Congratulate the student on this big achievement and encourage them to aim higher.

Please ensure that the child is completely sure and can recognize all the letters, before proceeding to the next level.
